**Subject:** RE: Question about a restriction

Steven,

I don't think a restriction is proper since most comprehensive claims 19+ comprise all the limitations of claim 1. Futher, claim 16 is a dependent claim so I don't know how can it be restricted.

**Subject:** Question about a restriction

Mr. Callahan,

I'm a new examiner here at the USPTO trying to do a restriction on a case (10/628995). One of my primary examiners directed me to SPE - Rexford Barnie of Art Unit (2819) who has directed me to your Art Unit (2816). Independent claims 1 and 16 are believed to fit best in class - 327, subclass - 24, 170, and/or 263. I would like to know who I should contact within your Art Unit to see if a restriction would be accepted so that I may write a restriction. If you need any further information please contact me, this is my first restriction and I would like to be sure I do this correctly. thank you for your time.

**Subject:** Question about a restriction

Mr. Barnie,

I'm a new examiner here at the USPTO. One of my primary examiners directed me to you regarding a restriction I would like to do with case 10/628995. Independent claim 1 and 26 are believed it fit best in class - 326, subclass - 29. I would like to know who I should contact within your Art Unit (2819) to see if a restriction would be accepted so that I may write a restriction. If you need any further information please contact me, this is my first restriction and I want to be sure I do this correctly. Thank you for your time.
